Flood and Riverbank Erosion Risk Management Investment Program - A program financed by ADB and EKN with consultancy services provided by Northwest Hydraulic Consultants and Mott MacDonald, which provided structural and non-structural flood and riverbank erosion risk management measures in three high priority subproject areas, with the aim in subsequent projects of extending the protected reaches using designs adjusted to current riverbank erosion conditions and considering the possibilities of reclaiming lost floodplain land.

## Blue Gold Program Wiki

The wiki version of the Lessons Learnt Report of the Blue Gold program, documents the experiences of a technical assistance (TA) team working in a development project implemented by the Bangladesh Water Development Board (BWDB) and the Department of Agricultural Extension (DAE) over an eight+ year period from March 2013 to December 2021. The wiki lessons learnt report (LLR) is intended to complement the BWDB and DAE project completion reports (PCRs), with the aim of recording lessons learnt for use in the design and implementation of future interventions in the coastal zone.
