# Module:Citation/CS1/Configuration/doc

From Blue Gold Program Wiki

< [Module:Citation/CS1](#) | [Configuration](#)

The printable version is no longer supported and may have rendering errors. Please update your browser bookmarks and please use the default browser print function instead.

**This is the documentation page for [Module:Citation/CS1/Configuration](#)**

`{{#lst:Module:Citation/CS1/doc|header}}` This configuration file contains various data that controls the functioning of [Module:Citation/CS1](#) and hence the way that Lua-based citations are generated.

It has several sections among which are:

1. translation tables that contain most of the literal strings that may be included in Lua-based citation. If editors are copying this Module to another wiki using a language other than English, then they should translate each of these values into that language.
2. a list of error conditions specifying what text to display, what category to include (if any), and what help page section to refer to when errors are detected
3. a list of ID handlers specifying the recognized document IDs, such as ISBN, DOI, etc., and how to format them.

`{{#lst:Module:Citation/CS1/doc|module_components_table}}`

# Blue Gold Program Wiki

The wiki version of the Lessons Learnt Report of the Blue Gold program, documents the experiences of a technical assistance (TA) team working in a development project implemented by the Bangladesh Water Development Board (BWDB) and the Department of Agricultural Extension (DAE) over an eight+ year period from March 2013 to December 2021. The wiki lessons learnt report (LLR) is intended to complement the BWDB and DAE project completion reports (PCRs), with the aim of recording lessons learnt for use in the design and implementation of future interventions in the coastal zone.
