-----
-----
-- Experiment blurb configuration
-----
-----

--[[
-- cfg['experiment-blurb-template']
-- cfg['experiment-blurb-module']
-- The experiment blurb is the text inviting editors to experiment in sandbox
and test cases pages.
-- It is only shown in the template and module namespaces. With the default
English settings, it
-- might look like this:
--
-- Editors can experiment in this template's sandbox (edit | diff) and
testcases (edit) pages.
--
-- In this example, "sandbox", "edit", "diff", "testcases", and "edit" would
all be links.

```

```

--
-- There are two versions, cfg['experiment-blurb-template'] and
cfg['experiment-blurb-module'], depending
-- on what namespace we are in.
--
-- Parameters:
--
-- $1 is a link to the sandbox page. If the sandbox exists, it is in the
following format:
--
--     cfg['sandbox-link-display'] (cfg['sandbox-edit-link-display'] |
cfg['compare-link-display'])
--
-- If the sandbox doesn't exist, it is in the format:
--
--     cfg['sandbox-link-display'] (cfg['sandbox-create-link-display'] |
cfg['mirror-link-display'])
--
-- The link for cfg['sandbox-create-link-display'] link preloads the page
with cfg['template-sandbox-preload']
-- or cfg['module-sandbox-preload'], depending on the current namespace. The
link for cfg['mirror-link-display']
-- loads a default edit summary of cfg['mirror-edit-summary'].
--
-- $2 is a link to the test cases page. If the test cases page exists, it is
in the following format:
--
--     cfg['testcases-link-display'] (cfg['testcases-edit-link-display'] |
cfg['testcases-run-link-display'])
--
-- If the test cases page doesn't exist, it is in the format:
--
--     cfg['testcases-link-display'] (cfg['testcases-create-link-display'])
--
-- If the test cases page doesn't exist, the link for cfg['testcases-create-
link-display'] preloads the
-- page with cfg['template-testcases-preload'] or cfg['module-testcases-
preload'], depending on the current
-- namespace.

Blue Gold Program Wiki

The wiki version of the Lessons Learnt Report of the Blue Gold program, documents the experiences of a technical assistance (TA) team working in a development project implemented by the Bangladesh Water Development Board (BWDB) and the Department of Agricultural Extension (DAE) over an eight+ year period from March 2013 to December 2021. The wiki lessons learnt report (LLR) is intended to complement the BWDB and DAE project completion reports (PCRs), with the aim of recording lessons learnt for use in the design and implementation of future interventions in the coastal zone.
