Module:For

From Blue Gold Program Wiki

The printable version is no longer supported and may have rendering errors. Please update your browser bookmarks and please use the default browser print function instead.

Documentation for this module may be created at [Module:For/doc](#)

```

local mArguments --initialize lazily
local mHatlist = require('Module:Hatnote list')
local mHatnote = require('Module:Hatnote')
local yesNo = require('Module:Yesno')
local p = {}

--Implements {{For}} from the frame
--uses capitalized "For" to avoid collision with Lua reserved word "for"
function p.For (frame)
    mArguments = require('Module:Arguments')
    return p._For(mArguments.getArgs(frame))
end

--Implements {{For}} but takes a manual arguments table
function p._For (args)
    local use = args[1]
    if (not use) then
        return mHatnote.makeWikitextError(
            'no context parameter provided. Use {{other uses}}'
        )
    end
    local pages = {}
    function two (a, b) return a, b, 1 end --lets us run ipairs from 2
    for k, v in two(ipairs(args)) do table.insert(pages, v) end
    return mHatnote._hatnote(
        mHatlist.forSeeTableToString({{use = use, pages = pages}}),
        {selfref = args.selfref}
    ) .. (
        (use == 'other uses') and yesNo(args.category) and
        '[[Category:Hatnote templates using unusual
parameters]]' or ''
    )
end

return p

```

Blue Gold Program Wiki

The wiki version of the Lessons Learnt Report of the Blue Gold program, documents the experiences of a technical assistance (TA) team working in a development project implemented by the Bangladesh Water Development Board (BWDB) and the Department of Agricultural Extension (DAE) over an eight+ year period from March 2013 to December 2021. The wiki lessons learnt report (LLR) is intended to complement the BWDB and DAE project completion reports (PCRs), with the aim of recording lessons learnt for use in the design and implementation of future interventions in the coastal zone.
