Module:Labelled list hatnote

From Blue Gold Program Wiki

The printable version is no longer supported and may have rendering errors. Please update your browser bookmarks and please use the default browser print function instead.

Documentation for this module may be created at [Module:Labelled list hatnote/doc](#)

```

-----
-- Labelled list
-- 
-- 
-- 
-- This module does the core work of creating a hatnote composed of a list
-- prefixed by a colon-terminated label, i.e. "LABEL: [andList of pages]",
-- for {{see also}} and similar templates.
-- 
-----
```

```

local mHatnote = require('Module:Hatnote')
local mHatlist = require('Module:Hatnote list')
local mArguments --initialize lazily
local p = {}

-- Defaults global to this module
local defaults = {
    label = 'See also', --Final fallback for label argument
    labelForm = '%s: %s',
    prefixes = {'label', 'label ', 'l'},
    template = 'Module:Labelled list hatnote'
}

-- Helper function that pre-combines display parameters into page arguments.
-- Also compresses sparse arrays, as a desirable side-effect.
function p.preprocessDisplays (args, prefixes)
    -- Prefixes specify which parameters, in order, to check for display
options
    -- They each have numbers auto-appended, e.g. 'label1', 'label 1', &
'l1'
    prefixes = prefixes or defaults.prefixes
    local pages = {}
    for k, v in pairs(args) do
        if type(k) == 'number' then
            local display
            for i = 1, #prefixes do
                display = args[prefixes[i] .. k]
                if display then break end
            end
            local page = display and
                string.format('%s|%s', string.gsub(v, '|.*$', ''),
'), display) or v
                pages[#pages + 1] = page
        end
    end
    return pages

```

```

end

-- Produces a labelled pages-list hatnote.
-- The main frame (template definition) takes 1 or 2 arguments, for a
singular
-- and (optionally) plural label respectively:
-- * {{#invoke:Labelled list hatnote|labelledList|Singular label|Plural
label}}
-- The resulting template takes pagename & label parameters normally.

Blue Gold Program Wiki

The wiki version of the Lessons Learnt Report of the Blue Gold program, documents the experiences of a technical assistance (TA) team working in a development project implemented by the Bangladesh Water Development Board (BWDB) and the Department of Agricultural Extension (DAE) over an eight+ year period from March 2013 to December 2021. The wiki lessons learnt report (LLR) is intended to complement the BWDB and DAE project completion reports (PCRs), with the aim of recording lessons learnt for use in the design and implementation of future interventions in the coastal zone.
