# Module:Sidebar/styles.css

From Blue Gold Program Wiki

< [Module:Sidebar](#)

The printable version is no longer supported and may have rendering errors. Please update your browser bookmarks and please use the default browser print function instead.

```
/* {{pp-template}} */
```

```
/* TODO: Invert width design to be "mobile first" */
```

```

.sidebar {
    /* TODO: Ask if we should have max-width 22em instead */
    width: 22em;
    /* @noflip */
    float: right;
    /* @noflip */
    clear: right;
    /* @noflip */
    margin: 0.5em 0 1em 1em;
    background: #f8f9fa;
    border: 1px solid #aaa;
    padding: 0.2em;
    text-align: center;
    line-height: 1.4em;
    font-size: 88%;
    border-collapse: collapse;
    /* Timeless has display: none on .nomobile at mobile resolutions, so
we
    * unhide it with display: table and let precedence and proximity
win.
    */
    display: table;
}

/* Unfortunately, so does Minerva desktop, except Minerva drops an
* !important on the declaration. So we have to be mean for Minerva users.
* Mobile removes the element entirely with `wgMFRemovableClasses` in
* https://github.com/wikimedia/operations-mediawiki-config/blob/master/
wmf-config/InitialiseSettings.php#L16992
* which is why displaying it categorically with display: table works.
* We don't really want to expose the generic user in the wild on mobile to
have
* to deal with sidebars. (Maybe the ones with collapsible lists, so that
* might be an improvement. That is blocked on [[:phab:T111565]].)
*/
body.skin-minerva .sidebar {
    display: table !important;
    /* also, minerva is way too aggressive about other stylings on
tables.
    * TODO remove when this template gets moved to a div. plans on talk
page.
    * We always float right on Minerva because that's a lot of extra CSS
    * otherwise. */
    float: right !important;
    margin: 0.5em 0 1em 1em !important;
}

.sidebar-subgroup {
    width: 100%;
    margin: 0;
    border-spacing: 0;
}

```

```
}

.sidebar-left {
    /* @noflip */
    float: left;
    /* @noflip */
    clear: left;
    /* @noflip */
    margin: 0.5em 1em 1em 0;
}

## Blue Gold Program Wiki

The wiki version of the Lessons Learnt Report of the Blue Gold program, documents the experiences of a technical assistance (TA) team working in a development project implemented by the Bangladesh Water Development Board (BWDB) and the Department of Agricultural Extension (DAE) over an eight+ year period from March 2013 to December 2021. The wiki lessons learnt report (LLR) is intended to complement the BWDB and DAE project completion reports (PCRs), with the aim of recording lessons learnt for use in the design and implementation of future interventions in the coastal zone.
