Template:Citation Style documentation/date

From Blue Gold Program Wiki

< [Template:Citation Style documentation](#)

The printable version is no longer supported and may have rendering errors. Please update your browser bookmarks and please use the default browser print function instead.

- **date**: Date of source being referenced. Can be full date (day, month, and year) or partial date (month and year, season and year, or year). Use same format as other publication dates in the

citations.^{[[date 1](#)]} Required when **year** is used to disambiguate {{[sfn](#)}} links to multiple-work citations by the same author in the same year.^{[[more](#)]} Do not wikilink. Displays after the authors and is enclosed in parentheses. If there is no author, then displays after publisher. For acceptable date formats, see [Help:Citation Style 1 § Dates](#).

For approximate year, precede with "c. ", like this: |date=c. 1900.

For no date, or "undated", use |date=n.d.

Automatic date formatting: [Citation Style 1](#) and [2](#) templates, including this template, automatically render dates in date parameters (|date=, |access-date=, |archive-date=, etc.) in the style specified by the article's {{[use dmy dates](#)}} or {{[use mdy dates](#)}} template. See those templates' documentation for details.

- **year**: Year of source being referenced. Use of |date= is recommended unless *all* of the following conditions are met:
 1. The |date= format is YYYY-MM-DD.
 2. The citation requires a [CITEREF disambiguator](#).
 3. The template uses |ref=harv or |mode=cs2, or the template is {{[citation](#)}}.
- **orig-year**: Original publication year; displays in square brackets after the **date** (or **year**). For clarity, please supply specifics. For example: |orig-year=First published 1859 or |orig-year=Composed 1904. Alias: **origyear**
- **df**: date format; sets rendered dates to the specified format; does not support date ranges or seasonal dates; overrides the automatic date formatting described above. Accepts one value which may be one of these:

dmy - set publication dates to day month year format; access- and archive-dates are not modified;

mdy - as above for month day, year format

ymd - as above for year initial numeric format YYYY-MM-DD

dmy-all - set publication, access-, and archive-dates to day month year format;

mdy-all - as above for month day, year format

ymd-all - as above for year initial numeric format YYYY-MM-DD

1. [↑] Publication dates in references within an article should all have the same format. This may be a different format from that used for archive and access dates. See [MOS:DATEUNIFY](#).

Blue Gold Program Wiki

The wiki version of the Lessons Learnt Report of the Blue Gold program, documents the experiences of a technical assistance (TA) team working in a development project implemented by the Bangladesh Water Development Board (BWDB) and the Department of Agricultural Extension (DAE) over an eight+ year period from March 2013 to December 2021. The wiki lessons learnt report (LLR) is intended to complement the BWDB and DAE project completion reports (PCRs), with the aim of recording lessons learnt for use in the design and implementation of future interventions in the coastal zone.
