# Template:Citation Style documentation/ref

From Blue Gold Program Wiki

< [Template:Citation Style documentation](#)

The printable version is no longer supported and may have rendering errors. Please update your browser bookmarks and please use the default browser print function instead.

- **ref**: the citation's HTML anchor identifier. When set, `|ref=ID` generates an anchor with the given *ID* (the `id` attribute in the citation's `<cite id="ID">` HTML tag). Setting `|ref=ID` identifies the template as a target and allows [wikilinking to full references](#), especially useful

with short-form citations like [shortened notes](#) and [parenthetical referencing](#). The special value `|ref=harv` generates an anchor identifier suitable for use with `{{sfn}}` and `{{harv}}` templates. For `|mode=cs2 |ref=` defaults to `|ref=harv`. See [Template:Citation/doc § Anchors for Harvard referencing templates](#).

# Blue Gold Program Wiki

The wiki version of the Lessons Learnt Report of the Blue Gold program, documents the experiences of a technical assistance (TA) team working in a development project implemented by the Bangladesh Water Development Board (BWDB) and the Department of Agricultural Extension (DAE) over an eight+ year period from March 2013 to December 2021. The wiki lessons learnt report (LLR) is intended to complement the BWDB and DAE project completion reports (PCRs), with the aim of recording lessons learnt for use in the design and implementation of future interventions in the coastal zone.
