Parameters[\[edit source\]](#)

This template allows the easy citing of legislation.

Template parameters

This template prefers inline formatting of parameters.

Parameter	Description	Type	Status
Type	type	The type of act cited, to be used if the legislation isn't called an act, such as in bills. When citing a specific section, use the name of that specific section, be it Directive, Clause, Article, etc. Default Act	String suggested
Index	index number	The index of the Type parameter. For when citing specific sections, this is the specific index of that section, and so if you're specifically citing clause "'A/500 - B'", that'll be what is written in this field.	String suggested
Date	date year	The date the legislation was passed, unless there's some other date or year that appears in the name of the act. Must be in DMY, MDY, MY or Y date format.	Date required
Article	article	The path of articles leading to the cited article abbreviated; doesn't mentions section types such as chapter, section, article, etc.	String suggested
Article type	article-type	The type of the highest ranking article in the article path. Only appears if the Article parameter is set to something. Default Article	String optional
Legislature	legislature	The legislature that passed the cited act or article.	String suggested
Name	title	A unique given name of the specific cited act or article	String optional
Translated name	trans-title	A translated title of the name. For non-English acts.	String optional
Page	pages page	Page number or range.	String optional
URL	url	URL where the legislation may be found.	String optional
Language	language	The language the act or article is written in.	String optional
Other date format	odf	set to 'yes' to override the formatting requirement for the Date parameter, allowing to use YMD. Use only in special cases when it is important to keep consistency in reference date formats AND there's no date associated with the law except of the date it was passed. Default empty	String optional

Lowest tier of local government

Blue Gold Program Wiki

The wiki version of the Lessons Learnt Report of the Blue Gold program, documents the experiences of a technical assistance (TA) team working in a development project implemented by the Bangladesh Water Development Board (BWDB) and the Department of Agricultural Extension (DAE) over an eight+ year period from March 2013 to December 2021. The wiki lessons learnt report (LLR) is intended to complement the BWDB and DAE project completion reports (PCRs), with the aim of recording lessons learnt for use in the design and implementation of future interventions in the coastal zone.
