Template:MediaWiki URL rules

From Blue Gold Program Wiki

The printable version is no longer supported and may have rendering errors. Please update your browser bookmarks and please use the default browser print function instead.

URLs must begin with a supported [URI scheme](#). `http://` and `https://` will be supported by all browsers; however, `ftp://`, `gopher://`, `irc://`, `ircs://`, `mailto:` and `news:` may require a plug-in or an external application and should normally be avoided. [IPv6](#) host-names are currently not

supported.

If URLs in [citation template parameters](#) contain certain characters, then they will not display and link correctly. Those characters need to be [percent-encoded](#). For example, a space must be replaced by %20. To encode the URL, replace the following characters with:

sp " ' < > [] { | }
%20 %22 %27 %3c %3e %5b %5d %7b %7c %7d

Single apostrophes do not need to be encoded; however, unencoded multiples will be parsed as italic or bold markup. Single curly closing braces also do not need to be encoded; however, an unencoded pair will be parsed as the double closing braces for the template transclusion.

[50px Template documentation](#)[\[create\]](#)

Editors can experiment in this template's sandbox ([create](#) | [mirror](#)) and testcases ([create](#)) pages. Add categories to the [/doc](#) subpage. [Subpages of this template](#).

Blue Gold Program Wiki

The wiki version of the Lessons Learnt Report of the Blue Gold program, documents the experiences of a technical assistance (TA) team working in a development project implemented by the Bangladesh Water Development Board (BWDB) and the Department of Agricultural Extension (DAE) over an eight+ year period from March 2013 to December 2021. The wiki lessons learnt report (LLR) is intended to complement the BWDB and DAE project completion reports (PCRs), with the aim of recording lessons learnt for use in the design and implementation of future interventions in the coastal zone.
