# Template:Pagebanner

From Blue Gold Program Wiki

The printable version is no longer supported and may have rendering errors. Please update your browser bookmarks and please use the default browser print function instead.

**[50px Template documentation](#)**[\[view\]](#) [\[edit\]](#) [\[history\]](#) [\[purge\]](#)

---

This template places a banner and horizontal Table of Contents at the top of travel guide pages. This template is a wrapper around the [mw:Extension:WikidataPageBanner](#) extension and should be used instead of invoking the extension directly. For more information about page banner usage on Wikivoyage, see [Wikivoyage:Banner Expedition](#).

**Basic usage:** `{{pagebanner | image name }}`

- To use the default banner, which inserts the page name and TOC on top of generic image, simply type `{{pagebanner}}`
- *image name*: Enter the name of the image to use in the banner (excluding "File:"). Images should have a width-to-height ratio of 7:1, preferably 2100 x 300 pixels, and be at least 1800 pixels wide.

**Customizing the banner:** `{{pagebanner | image name | caption text | page name | disambiguation | star | DotM | OtBP | Ftt | TOC box }}`

The template has the following options:

- *caption text*: Recommended. Enter *caption=description* to display a description of the picture when a mouse pointer is placed over the banner image.
- *page name*: Optional. Enter *pgname=name* to display in the banner. Only enter a name if you want it to be different than the formal name of the page.
- *disambiguation*: Optional. Displays a disambiguation icon in the banner (a question mark) and the disambiguation hatnote after the banner. Enter *disambig=yes* if the name of the disambiguation page is *page name (disambiguation)*. Enter *disambig=disambiguation page name* if the disambiguation page name is different from the current page name.
- *star*: Optional. Enter *star=yes* if the guide is a [Star article](#). This displays the Star article symbol in the top right corner.
- *DotM*: Optional. Enter *dotm=yes* if the guide is a [previous Destination of the month](#). This displays the DotM symbol in the top right corner and adds [a category](#).
- *OtBP*: Optional. Enter *otbp=yes* if the guide has been featured on [Off the beaten path](#). This displays the OtBP symbol in the top right corner and adds [a category](#).
- *Ftt*: Optional. Enter *ftt=yes* if the guide has been a [Featured travel topic](#). This displays the Ftt symbol in the top right corner and adds [a category](#).
- *unesco*: Optional. Enter *unesco=yes* if the guide is or describes a site on the [UNESCO World Heritage list](#). Only the lowest level guides in the hierarchy should be tagged (ie, [Sydney/City Centre](#) for the Opera House, not [Sydney](#)). This displays the World Heritage symbol in the top right corner and adds [a category](#).
- *TOC box*: Optional. Enter *box=black* for the TOC to appear in a translucent black box with white type. Enter *box=white* for the TOC to appear in a translucent white box with black type. Enter nothing for the default solid grey box with black type.
- *notoc*: Optional. Enter *notoc=true* to stop the TOC being included in the banner and for the entire TOC to be shown within the article instead. Mainly to be used on articles with lots of sections.
- *index*: Optional. Enter *index=yes* for banners on title/index pages or pages in other main namespace article categories which do not always get banners.
- *fop*: Optional. Enter *fop=yes* for freedom-of-panorama banners which are not allowed on Commons, to remove them from applicable maintenance categories
- *origin*: Optional. Use this parameter to define the focal area of the image. This is used to crop the banner appropriately on small screens. The value of the parameter should consist of an x and a y coordinate separated by a comma. Each coordinate represents the distance from the center of the image as a value from -1 to 1. For example, *origin=1,1* is

the top right corner and origin=-1,1 is the top left corner. There is a graphic [here](#) that shows this information visually.

This template places a banner and horizontal Table of Contents at the top of travel guide pages, with many other information.

### Template parameters

This template prefers inline formatting of parameters.

Parameter		Description	Type	Status
<b>Image link</b>	1	Banner illustrating the article Example File:Vue panoramique Parlement de Bretagne.jpg	File	suggested
<b>Caption text</b>	caption	Will display a description of the picture when a mouse pointer is placed over the banner image.	String	suggested
<b>Page name</b>	pgname	Enter a name to display in the banner, only if it is different than the formal name of the page.	String	optional
<b>Disambiguation</b>	disambig	Enter "yes" if the name of the disambiguation page is page name (disambiguation). Enter disambiguation's page name if the disambiguation page name is different from the current page name. It displays a disambiguation icon in the banner (a question mark) and the disambiguation hatnote after the banner.	String	optional
<b>Star article</b>	star	Enter "yes" if the guide is a Star article. This displays the Star article symbol in the top right corner.	Boolean	optional
<b>Destination of the month</b>	otbp	Enter "yes" if the guide is has been a Off the beaten path. This displays the OtBP symbol in the top right corner.	Boolean	optional
<b>Destination of the month</b>	dotm	Enter "yes" if the guide is has been a Destination of the month. This displays the DOtM symbol in the top right corner.	Boolean	optional
<b>Featured travel topic</b>	ftt	Enter "yes" if the guide is has been a Featured travel topic. This displays the FFT symbol in the top right corner.	Boolean	optional
<b>UNESCO World Heritage list element</b>	unesco	Enter "yes" if the guide is or describes a site on the UNESCO World Heritage list. Only the lowest level guides in the hierarchy should be tagged (ie, Sydney/City Centre for the Opera House, not Sydney). This displays the World Heritage symbol in the top right corner and adds a category.	Boolean	optional

Parameter		Description	Type	Status
<b>TOC box color</b>	TOC box	Enter box=black for the TOC to appear in a translucent black box with white type. Enter box=white for the TOC to appear in a translucent white box with black type. Enter nothing for the default solid grey box with black type.	Unknown	optional
<b>No table of contents</b>	notoc	Enter "true" to stop the TOC being included in the banner and for the entire TOC to be shown within the article instead. Mainly to be used on articles with lots of sections.	Unknown	optional
<b>Index pages</b>	index	Enter "yes" for banners on title/index pages or pages in other main namespace article categories which do not always get banners.	Unknown	optional
<b>Freedom of panorama</b>	fop	Enter "yes" for freedom-of-panorama banners which are not allowed on Commons, to remove them from applicable maintenance categories	Unknown	optional
<b>Focal area of the image</b>	origin	Use this parameter to define the focal area of the image. This is used to crop the banner appropriately on small screens. The value of the parameter should consist of an x and a y coordinate separated by a comma. Each coordinate represents the distance from the center of the image as a value from -1 to 1. For example, origin=1,1 is the top left corner and origin=-1,1 is the bottom left corner. There is a graphic here that shows this information visually.	Unknown	optional

## Blue Gold Program Wiki

The wiki version of the Lessons Learnt Report of the Blue Gold program, documents the experiences of a technical assistance (TA) team working in a development project implemented by the Bangladesh Water Development Board (BWDB) and the Department of Agricultural Extension (DAE) over an eight+ year period from March 2013 to December 2021. The wiki lessons learnt report (LLR) is intended to complement the BWDB and DAE project completion reports (PCRs), with the aim of recording lessons learnt for use in the design and implementation of future interventions in the coastal zone.
